**HOW TO END SUICIDE BOMBINGS**

There is a way to stop suicide bombings by Moslems. Although the technique has been around for at least 100 years, I have just learned about it. The technique was used by the American forces in the Philippines following the end of the Spanish-American War. It was instrumental in putting down a Moslem insurgency which used suicide attackers against the American forces.

Following a suicide bombing or the death of any Arab-Muslim fighter, bury his remains in a pigskin. Show this burial ceremony on TV and announce via all media reaching the Arabs that all Arab fighters will never get to Moslem heaven because they are being buried in the skin of a pig. Since the suicide bombers volunteer for their missions in order to become martyrs and go to Moslem heaven where they will be welcomed by Mohammed and 70 virgins, their non-kosher burial will end their fantasy and motivation.

My guess is that the Israeli leaders are aware of the potential effectiveness of this technique, but that the wimps feel more comfortable dealing with Jewish casualties rather than with Arab rage.

**WHEN JEW-LEADER SPEAKS WITH FORKED TONGUE,  
IT'S TIME TO TOPPLE**

Good old Ariel is fast falling into the Rabin, Peres, Netanyahu, Barak mode of trying to placate the Arabs, the Europeans and the Americans, and addressing the people that elected him with a forked tongue. Some of his comments during the campaign indicated that he would follow his predecessors into the quicksand of the big muddy. He should have learned, but didn't, that the only way to placate the Arabs and their friends is by Israel's suicide.

Instead of addressing the only valid position of the Mitchell Report--that the Arabs immediately and completely stop the war--he offers weasel words about what might be done with the settlements after the Arabs stop shooting. It's another "gotcha" for Arafat.

Diogenes believes it is time to start the toppling process before good old Ariel wades any deeper into the big muddy. Perhaps this gentle rocking motion of the Prime Minister's chair will jar him into a "we know the enemy and he is toast" mode. If not, let the toppling go all the way and let the Prime Minister fall where he may.

## **IT DON'T PAY TO SUCK UP TO THE ARABS**

It would be difficult to find a more obsequious supporter of the Arabs than India, No matter what twists and turns Arab policies take, you'll find India kissing Arab asses right in the big picture windows at the UN. That's, of course, when the policies involve the denigration of Israel. In their own region, the Indians regularly kick the crap out of the Moslems whether in Kashmir, on the borders with Pakistan or right in their own home territory.

For their part, the Arab countries delight in kicking India, the self-proclaimed leader of the third world, out of the Arab version of third world conferences. And now, the Taliban, Afghanistan's version of peace-loving Moslems, are forcing Hindus to wear patches that identify them as infidels. While the media is chanting shades of the Nazis. I say the Hindus should pick their friends more carefully.

## **LYING ISRAELI "HISTORIANS"**

Despite overwhelming evidence to the contrary there is exists a subspecies of termites, the cabal of left wing Israeli "historians" who invent lies to denigrate the State of Israel. One of their favorite fabrications is that the Jewish community in Palestine was better armed than the five Arab nations that attacked it. And that, the Jews encouraged the attacks in order to drive out the local desert barbarians and seize more land. The following comments by a non-Jew who fought for the establishment of Israel is just another source that that unmask the termites:

"When your dad and I joined up with the Hagana we had three tanks, the two Cromwells and a Sherman we scrounged together from scrap taken from the desert," Flanagan told Burrows. "They were the only tanks Israel had. When I think back to the odds stacked against us, those Arabs were armed to the teeth, it was amazing we survived, let alone won." (Jerusalem Post article 5/24/01)

## **NO ONE IS RESPONSIBLE**

Diogenes predicts that the builders, contractors and building inspectors who, in an honest society, would be considered responsible for the Jerusalem building collapse will be prosecuted in the same half-assed fashion that the Israelis are responding to Arab violence. This is pretty much akin to the situation in the US where no one is responsible for anything, especially in the upper echelons of government and society. As a number of social critics have noted, sin is no longer an operative factor among us.

## **WETBACK MENTALITY**

In response to the deaths of some 14 illegal aliens from Mexico who died in an Arizona desert while trying to sneak into the United States, a Mexican government official declared that the American government should make it easier for her people to enter this country. Diogenes says why the hell doesn't the Mexican government do something concrete about improving the quality of life in Mexico so that its citizens are no longer willing to risk their lives to escape to the US? What is the Mexican government doing with the billions in oil revenue except stuffing the Swiss bank accounts of the thieves who run the country? Before Mexican officials ask for more lenient laws they should examine their own bloody hands--and a Bastille Day would not be out of place in that country.

### **TERMITE NEWS**

Current news of Jewish termites from Israel, the U. S. and around the world who are working to undermine the State of Israel.

Harold M. Shapiro and Charney V. Bromberg mourn the "man of peace", Feisal Husseini in an obituary notice placed in the New York Times on behalf of the termite organization, Meretz USA. This "man of peace", son of a Jew-murderer, never recognized the legitimacy of Israel, advocated until his timely end that Jerusalem should be the capitol of an Arab state, and never opposed the use of violence. This is just case of termites honoring a snake. Mother Nature makes strange bedfellows.

Haaretz columnist Akiva Eldar wrote critically that "Ariel Sharon has decided to turn the Palestinian Authority into the enemy." Calling Eldar a termite is unfair to termites.
