**THE HIJACKERS\***

The world, as usual, was surprised when the Arabs and other Muslims started to hijack airliners, but it shouldn't have been a surprise. Hijacking has long been an integral part of their culture and religion. A few examples will support my contention.

A critical genealogical sequence in the Torah which was given to the Jewish nation almost 2,000 years before Muhammad was even in diapers was hijacked and twisted by that gentleman and his writers of the Koran. The Torah states, without any ands ifs or buts, that Isaac will carry forward his father Abraham's role as the progenitor of the Jewish nation. As for Abraham's other son, Ishmael, the Torah states that he will also become the father of a nation—and the Arabs claim him as their founder. In its wisdom and perspicacity, the Torah states that Ishmael's hand will be against every man and every man's hand will be against him. And, the Arabs work very hard to live up to the Torah's prediction.

In order to give his people and religion some legitimacy, Muhammad hijacked this story and changed it to where Ishmael was selected by Abraham to be his inheritor making the Jews cousins—albeit, distant cousins—to the Arabs, the true inheritors of Abraham's legacy.

Another example is The Temple Mount in Jerusalem—the site of both the first and second Jewish temples—which has been hijacked by the Arabs. The warriors of “peace”—Islam—built two mosques on the temple mount. Of more recent times, they have even hijacked the identity of the Temple Mount calling it by another name—the noble sanctuary—and denying that it was ever the site of the Jewish temples. But since the Arabs are the Baron Munchausens of the world their lies also should not come as a surprise.

A final example is the Eastern Orthodox St. Sophia Church, which was built in Constantinople in the 6<sup>th</sup> Century of the Common Era. In the 15<sup>th</sup> Century the Muslim Ottoman Turks hijacked the church and converted into a mosque. Today, it is an Istanbul Museum.

## **TRIPLE JEOPARDY\***

The headline of George W. Bush's visit to the troubled U.S. Army hospital read: "Bush Apologizes For Walter Reed Woes." I feel that an "apology" to the wounded troops is woefully inadequate. Even if the President clothed himself in sackcloth and poured earth on his head, it would be inadequate.

Our president and his administration put these American soldiers in not double, but triple jeopardy. The Constitution protected Americans from just double jeopardy, so you can only imagine the un-Americanism that triple jeopardy implies. Our leaders subjected our military to unnecessary dangers—over and above the normal perils—of combat. There was no protective armor on many of their vehicles or adequate body protection for the soldiers themselves. That's why so many of them are at Walter Reed. That's the first jeopardy.

It was double jeopardy—which, I believe, is against the law-- when they stuck these wounded warriors into substandard facilities. Let us not lose sight of the fact that the members of the Administration, as well as the members of Congress get the finest medical care in well-maintained medical facilities. In addition, the wounded were forced to fill out multitudes of forms and run around to complete their paperwork with minimum—if any—assistance. And I'm not even counting this bureaucratic torture as a separate jeopardy.

The experiences of the wounded veterans with the bureaucracy at the Veterans Administration makes it triple jeopardy. Problems with arranging timely follow-up treatment, with readily obtaining proper medications and with the quicksand swamp known as government paperwork is inexcusable.

On the basis of this triple jeopardy alone, every U.S. serviceman and woman should be removed from Iraq and Afghanistan before another one of these Americans is subjected to this type of treatment.

## **CHUTZPAH**

Bill Gates decides to organize an enormous session of recruitment for a chairman for Microsoft Europe. The 5000 candidates are all assembled in a large room. One of the candidates is Maurice Cohen, a little Parisian Jew from Tunis.

Bill Gates thanks all the candidates for coming and asks that all those who do not know JAVA program language rise and leave. 2000 people rise and leave the room. Maurice Cohen says to himself, "I do not know this language but what have I got to lose if I stay? I'll give it a try."

Bill Gates asks all the candidates who have never had experience of team management of more than 100 people to rise and leave. 2000 people rise and leave the room. Maurice Cohen says to himself, "I have never managed anybody but myself but what have I got to lose if I stay? What can happen to me?" So he stays.

Then Bill Gates asks all the candidates who do not have excellent college diplomas to rise and leave. 500 people rise and leave the room. Maurice Cohen says to himself, "I left school at 15 but what have I got to lose if I stay?" So he stays in the room.

Lastly, Bill Gates asks all of the candidates who do not speak the Serbo-Croatian language to rise and leave. 498 people rise and leave the room. Maurice Cohen says himself, "I do not speak Serbo-Croatian but what the hell! - Have I got anything to lose?" So he stays in the room.

He finds himself alone with one other candidate - everyone else has gone. Bill Gates joins them and says: "Apparently you are the only two candidates who speak Serbo-Croatian, so I'd now like to hear you both have a little conversation in that language!"

Calmly Maurice turns to the other candidate and says to him: "Baroukh ata Adonai".

The other candidate answers: "Elohenou melek ha'olam

## **A LIVING WILL**

Last night, my wife and I were sitting in the living room and I said to her, "I never want to live in a vegetative state, dependent on some machine and fluids from a bottle. If that ever happens, just pull the plug."

She got up, unplugged the TV and then threw out my beer.

She's such a bitch.

## **NAMES**

Names that fit and names that don't.

Here's a name that fits: Dr. Perry Shear, an orthopedic surgeon in Fairfield, CT.

Here is one that doesn't: Dr. Jeffrey A. Bash, an orthopedic surgeon in Middletown, CT.

**QUOTES I LIKE**

Diogenes considers them clever and/or informative,  
Not that he necessarily agrees with them. Not even with his own.

Remember the American battle cry: “don’t shoot until you see the whites of their eyes?”  
Now, take note of the Israeli version: “don’t shoot until you’re sure you can’t hit them.”

- Diogenes

A sportsman is a man who, every now and then, simply has to get out and kill something.  
Not that he’s cruel. He wouldn’t hurt a fly. It’s not big enough.

- Stephen Leacock

Is it progress if a cannibal uses knife and fork?

- Stanislaw Lec

Being a woman is of special interest only to aspiring male transsexuals. To actual  
women, it is merely a good excuse not to play football.

- Fran Lebowitz

In my youth there were words you couldn’t say to a girl. Now you can’t say girl.

- Tom Lehrer

Epigram: a wisecrack that played Carnegie Hall.

- Oscar Levant

We have trained men to think of the Future as a promised land which favored heroes  
attain—not as something which everyone reaches at the rate of sixty minutes an hour,

I have standard Russian-Jewish parents. My dad is a math professor. They have a certain attitude about studies. And I think I can relate that here because I was told that your school recently got seven of the 10 top places in a math competition throughout all Israel. What I have to say is, in the words of my father: What about the other three?
